

Huck® Magna-Lok

For a Variety of Applications, Nothing Else Will Do

The 360° solid-circle lock. It's Arconic Fastening Systems' answer to loosening and vibration challenges. And it's the reason Magna-Lok® is the world's most reliable, most consistent blind fastening solution available. The unique locking design creates an internal lock during installation that virtually eliminates pin pushout by mechanically locking the pin to the sleeve. So Magna-Lok fasteners lock flush into place reliably. Permanently.

In lap shear fatigue tests, steel Magna-Lok fasteners outlasted the nearest competitor nearly 20 to 1. Ours lasted 2 million cycles, while theirs lasted only 100,000. In addition, this strength extends to the solid-circle lock design. The expanding sleeve creates a tough, long-lasting joint with a tight, weather-resistant seal. This shield blocks out water and salt, further ensuring the fastener's long, reliable life.

Magna-Lok Benefits

- Unmatched installation speed
- Quiet non-torque tools
- Low overall installed cost
- No repetitive stress injuries
- Vibration resistance
- Eliminates need for secondary operations
- Weather-resistant seal
- No special training or skills required for operators
